Date Reviewed:

The Board of Education believes that cooperation between the school district and other organizations concerned with youth, career development and mental health will enhance the opportunities of the district's pupils. Such cooperation will also enable the district to serve its pupils better through appropriate referrals as in drug/alcohol programs, special needs, etc. The Superintendent of Schools is encouraged to explore areas of mutual concern with the administrative officers of such organizations and to recommend desirable courses of action.

The Board directs the Superintendent of Schools to seek and maintain working relationships with local colleges and universities in such areas as student teaching, in-service staff development, school-college liaison and advanced placement.

Relations With Non-Public Schools

The Board of Education will cooperate with parochial and private schools in matters of mutual benefit not expressly prohibited by law. The Superintendent of Schools is encouraged to explore areas of mutual benefit with the administrative officer of such schools and to recommend desirable courses of action.

Donations To Private Organizations

The authority for a Board of Education to expend public funds is derived from the constitutional mandate to "provide for the maintenance and support of a thorough and efficient system of free public schools." The donation of moneys to any private organization, regardless of the merits of that organization's purpose, is not within the authority of the Board and is, therefore, prohibited.
