Project Description Statement

Applicant District

Brick Township Board of Education

In this section applicants are to provide the reader with an overall picture of the project(s) for conceptualizing the planned use of funds. The narrative will show the applicant's intention for the project(s) over the project period and include the following:

- o Project goal
- o Implementation of this project
- o How this project will enhance safety
- o Any other information related to this project

Project Description *

The project goal focuses on expanding Surveillance Camera coverage at our Elementary Schools. Currently our Elementary Schools have basic coverage at the primary entrances of the building. With additional cameras, we can cover more access doors and some of the key internal common areas. A monitoring station in the main office will allow cameras to be viewed in real-time.

The Implementation of this project will occur throughout the 2016-17 school year, beginning once allocated funds are awarded. The district will be able to purchase monitors and approximately 25-30 cameras. The IT Department staff will perform the installations and link the new cameras to our existing DVR systems at each building.

Technology will enhance Security at the elementary schools, given they have very limited Security Personnel. Additional Surveillance cameras will assist administration in ensuring the safety of our students. Cameras, view-able via Monitoring Stations will help both from a proactive and a reactive perspective.
