Jim

I am writing to confirm our telephone conversation that DiCara Rubino Architects will be providing a credit to the Brick Public School District in the amount of \$22,313.26. This credit will offset the change order being issued to Amco Corp. to furnish and install (02) Glycol Monitoring systems with a complete package and additional glycol of (110) gallons to fill out BOTH Monitoring systems for the East and West Boiler Rooms as approved by the boiler manufacturer.
