ARTICULATION

In order to optimize student achievement of the New Jersey Student Learning Standards, the board of education shall be responsible for the delivery of educational programs at the elementary and secondary levels using a coherent sequence of activities to prepare all students for employment or postsecondary study upon their graduation.

The superintendent shall develop programs whereby teachers of the various levels of the district's schools cooperate to achieve smooth transitions from level to level; whereby pupils in the district's schools receive instruction in the same subjects at the same levels as pupils in other districts who will be attending the same high schools; and whereby the transition for district pupils from our elementary schools to the high school is accomplished without unnecessary difficulty for any pupil.

Further, the superintendent will make every effort to develop a similar relationship with nursery schools from which district kindergarten pupils come.

The board shall make reasonable efforts to develop articulation agreements with New Jersey colleges and universities to facilitate the delivery of college credit courses to qualified students in the high school.
