## Use of Grant Funding

- The \$10,000 grants must be used to fund all or part of a project that will earn points for an action in the Sustainable Jersey for Schools program. The Innovation Project action is acceptable.
- \$2,000 grants can be used for school green team expenses. Funding does not have to be for project specific activities. Grant funding *may* be used for a project that will earn points for an action in the Sustainable Jersey for Schools program.
- Eligible expenses include salary, stipends, supplies, materials, consultants, contractor service fees, equipment, program and educational materials.

## Eligible Applicants

- Be a New Jersey Public School District or School that is registered with the Sustainable Jersey for Schools program with a NJEA local association, AND have appointed a Green Team that meets the Green Team action standard. The \$2,000 grants are only for registered schools with green teams.
- For more detailed requirements, visit the Eligibility Requirements page.

## Turn Projects into Points

Successful grant applications often represent innovative projects underway throughout the state, and can act as a model and generate ideas for other municipalities. Grant applications should always relate to the completion of a Sustainable Jersey for Schools action, or an innovative project. Tips for project selection and actions to explore for certification points are below.

### PROJECT SELECTION

When selecting your project, consider the following to not only complete a project, but also earn points for certification:

- Think outside the box and identify an action that will fill a need in your school.
- Read the "project costs and resource needs", "what to do and how to do it", and "what to submit to earn points for this action" sections of actions you are considering for certification to see if any of the required items, resources, etc., can be covered by a grant.

### ACTIONS TO EXPLORE

Consider submitting an application for resources needed to help complete an action for certification. Some actions to take into consideration are below. The full list of actions is available [here](#).

- Accessible Communications
- Culture and Climate Needs Assessment
- Curriculum Mapping
- Enrichment Programs through Partnership
- Green Cleaning Training & Education
- Green Fair
- Healthy Food Choices Beyond the Cafeteria
- ISTEAM
- Professional Development for Sustainability
- Programs to Promote Physical Activity
- School Community Asset Mapping
- School Wellness Council
- Student Participation In the Arts
- Waste Audit
