MOTOR VEHICLES, Regulation

A copy of the Board of Education’s policy governing motor vehicles and regulations shall be issued to each student who applies for a parking sticker.

An application for a parking sticker shall be completed by each student, listing pertinent information driver’s license number, name of applicant, address, date of birth owner of the vehicle to be driven to school, vehicle registration number, year make, model and color of the car.

The principal shall have cause to retain in the principal’s office the completed application for a parking permit allowing students to drive and park on school property, and the parking permit number.

Students who possess a valid parking sticker must display it permanently on the side window of the car. Parking stickers may not be transferred to other vehicles or individuals.

Students who for whatever the reason drive to school in a vehicle without a parking sticker must report the information to the principal’s office upon arrival to school.

Vehicles parked on school property, during school hours, without a parking permit sticker appropriately displayed, or for which no report has been made to the principal’s office, will be subject to having the vehicle towed away. Any towing fee shall be at the expense of the student or owner of the vehicle and not the responsibility of the school.

Driving to school and parking on school property is a privilege which may be revoked by the principal or higher authority.

Key Words

Motor Vehicles, Student Parking
